

ASEA®

RENU28® Revitalizing Redox Gel

Personal care is an essential part of your daily routine, and it's not just about looking great—but feeling great, too.

That's why our RENU28® Revitalizing Redox Gel is designed to work at the surface skin cell level. By using redox signaling molecules, which are natural to our bodies, our gel promotes fresh and youthful-looking skin while also calming the skin from minor irritants and easing muscle discomfort. Used daily, our multipurpose RENU28® Gel transforms skin, empowering your potential to look and feel your best.

We power potential™

Take charge of your skin

Make today the day you change what your skin tells the world about you.

Our skin renews itself naturally over time—it's a process of rejuvenation our cells are already programmed to do. Over time, that process can slow down and may need a little boost.

RENU28® Revitalizing Redox Gel encourages that process. This skin-priming, age-fighting, cellular-rejuvenating gel generates 28 days of surface skin cell turnover, delivering tighter, more nourished skin.

Your body creates, RENU28 Gel rejuvenates

RENU28® Gel delivers full-body beauty that starts in your surface skin cells. When used daily, RENU28 Gel helps:

Improve the appearance of skin smoothness

Reduce the appearance of cellulite and wrinkles

Calm skin after shaving, sun, or minor irritants

Support surface skin cell renewal for visibly younger-looking skin

Soothe muscles after exercising

RENU28®

Revitalizing Redox Gel

Ingredients

Aqua / Water / Eau, Sodium Magnesium Fluorosilicate, Sodium Phosphate, Sodium Chloride.

RENU28 Gel is produced in our FDA-registered, NSF-certified facility and is certified by an independent third-party lab to contain active redox signaling molecules.

Directions

Use RENU28 Gel morning and evening after cleansing as step two of your RENUAdvanced® Skin Care routine or anywhere on your body, anytime, to prime and support areas of specific concern. Shake well before using.

Caution

For external use only. Avoid contact with eyes. If skin irritation occurs, discontinue use. Keep out of direct sunlight.

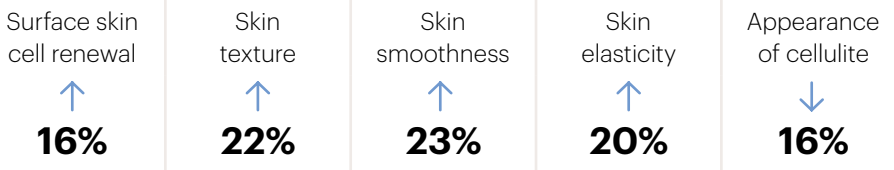

More power to your skin

Patented ASEA processes produce redox molecules, which support communication at the surface skin cellular level and help improve the healthy, youthful appearance of skin.

Proven results

World-renowned dermatological research institute Dermatest® conducted clinical trials on RENU28® Revitalizing Redox Gel with amazing results.

Over 28 days, clinical tests showed visible improvements.

RENU28® Gel has earned Dermatest's coveted 5-star clinically tested seal, its highest possible commendation for safety and efficacy.

Suitable for all skin types

Clean beauty

Dermatologist tested

Clinically tested

Does not include animal-based ingredients

Cruelty free

Free from parabens, artificial colors, GMOs, sulfates, phthalates, propylene glycol
